Please see over for rules governing selections.

Check that you have observed these...	Checked?
Make your selections on the website Subject Selections Online. This paper grid is only to help you make choices.	
Choose one first choice from each row across AND choose one reserve choice. You will have a total of 6 first choices and 6 reserve choices.	
You must choose at least one Health and Physical Education each semester including Outdoor Education, Hockey OR Golf so you do HPE all year.	
You must choose a minimum of one Art per year Drama, Dance, Photography, Visual Art, Music, Guitar	
Must choose a minimum of one Technology per year Food, Woodwork, Digital Technologies, Engineering	
Specialist subjects are selected all year.	
If you do French or Indonesian, it is all year. You must choose an HPE General or Extension, then you can choose any other subjects.	

You will find that Subject Selection Online responds to elective selections. For example, a Music student will not be able to choose Contemporary Guitar. This will help guide your choices.

You will only be able to complete your SSO selections when all requirements are satisfied.
